Dye:	yes	Latex:	no
Pigment:	yes		

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Water Coated Paper 230

Description:

The high volume weight of EMBLEM Water Coated Paper 230 conveys a pleasant feel. The matt surface of the paper gives it a noble appearance. The matt inkjet coating of WACOPA230 can be printed with the current water-based inks and enables low-reflection printing. The high coating amount ensures extremely fast ink drying, which enables short-term processing. In addition, a very high dot and line sharpness is achieved. The smooth and smooth surface minimizes micro air inclusions during lamination.

This paper is used for important projects and customers who have the highest demands. You achieve photorealistic images with saturated colours and durable results both inside shop windows and indoors without direct sunlight.

From an ecological point of view, WACOPA230 is very environmentally friendly as a pure paper product. It is free of plastics and FSC® (FSC-C119162) certified.

Processing:

The print can be cold or hot laminated for protection. We recommend the use of laminates from the EMBLEM LAMPER series for cold lamination.

Before laminating, make sure that the print is completely dry, otherwise bubbles may occur under the laminate.

Please store this paper in the packaging supplied and not unpacked!

It is recommended to wear cotton gloves to avoid fingerprints.

Application:

Typical indoor applications include high-quality posters, shop window advertising and presentations.

Product recommendation:

We recommend media of the EMBLEM LAMPER series for cold lamination.
